AJAY KOLI

Frontend Developer

🏠 Pune, Maharashtra 📞 8767674098 ✉ ajaymkoli.544@gmail.com in LinkedIn ○ Github

Profile Summary

Computer Science graduate and data specialist offering certified expertise in **Advanced PostgreSQL** and proficient in **Advanced Excel** for strategic analysis. I leverage this foundation, backed by skills in **MERN** technologies, to drive meticulous data synthesis and impactful organizational decision-making.

Experience

FPL Technologies (OneCard | OneScore)   **June 2024 – Present**

Associate   *Pune, Maharashtra*

- Provided exceptional customer support via chat, resolving inquiries and issues with a focus on delivering a high level of customer satisfaction.
- Managed multiple customer conversations simultaneously, demonstrating strong multitasking and organizational abilities in a fast-paced environment.
- Consistently maintained a high standard of accuracy in all customer interactions, ensuring precise and reliable assistance.

Projects

RSVP Management System | GitHub | *MERN Stack, JWT, bcryptjs, Nodemailer, QR Code*   **September 2025**

- Implemented **JWT authentication** and **bcryptjs password hashing** for secure user registration and login functionality with role-based access control.
- Designed a **QR code-based check-in system** using qrcode library for generation and react-qr-scanner for scanning, enabling efficient event attendance tracking.
- Integrated **Nodemailer** for automated email invitations, RSVP confirmations, and event reminders with personalized QR codes for each attendee.
- Created a **responsive UI** with React functional components and Tailwind CSS, featuring separate views for organizers and attendees with appropriate permissions.

Stock Market Analysis | GitHub | *HTML5, CSS3, Javascript, Plotly.js, API*   **July 2025**

- Developed a dynamic, single-page **stock market analysis dashboard** using vanilla **JavaScript**, **HTML**, and **CSS** to provide real-time financial data..
- Integrated and consolidated data from **three different real-time financial APIs** to display interactive charts, company profiles, and key statistics..
- Utilized **Plotly.js** to create engaging visualizations, allowing users to analyze historical stock performance across various time ranges (1 Month, 3 Months, 1 Year, 5 Years)..
- Built a **responsive and modern dark-themed UI**, demonstrating strong front-end skills in dynamic DOM manipulation, event handling, and asynchronous programming (`async/await|`).

EdTech Co Landing Page | GitHub | *HTML5, CSS3, JavaScript, Bootstrap*   **June 2025**

- Built a responsive landing page for an EdTech startup using HTML5, CSS3, and Bootstrap, ensuring seamless UX across devices.
- Designed an eye-catching UI with animated sections (hero, course features, testimonials) to improve user engagement and conversions.
- Incorporated a contact form with client-side validation and a mock submission handler using JavaScript.

Technical Skills

Programming Languages: HTML5, CSS3, Javascript(ES6+)
Databases: PostgreSQL
Developer Tools: VS Code, PgAdmin, Git and Github
Frameworks: Bootstrap, JQuery
Additional Skills: OOPS
Soft Skills: Problem Solving, Collaboration, Teamwork, Adaptability, Curiosity, Communication

Education

Modern College of Arts, Science, and Commerce   **2021 – 2024**

Bachelor of Science in Computer Science : 8.48 CGPA   *Pune, Maharashtra*

Trainings

Coding Ninjas   **Feb 2025 – Present**
Full Stack Web Development

  * Frontend

Udemy   **December 2024**
PostgreSQL: Advanced SQL Queries and Data Analysis

  * PostgreSQL

Achievements
